

2025 GRANTED

622 EDUCATION FOUNDATION

Cadaver Lab

Students at Tartan had an opportunity to tour the lab at UW-Stout to learn more about the human body and how it works. They also had the opportunity to tour campus - many of them touring a college campus for the first time.

Peaceful Warriors

When given the space to share their voice, students bloom in special ways. Weaver students wrote personal poems based on their experience, and how to be present.

Integrated friendships

Kindergarteners at Cowern made friends with Elk Ridge Senior Center Memory Care- the seniors read books, the students sang songs, and everyone drank punch and ate cookies.

Coding & internet safety

Students started a coding project with Makey Makeys which led to them coding their own game to play in scratch-all while staying safe online.

Blood Drive

Business teacher and BPA Advisor Vicki Kapaun led students in an annual blood drive-and it was so successful it earned the Red Cross Scholarship for senior BPA students, and provide gift cards for students who donated blood.

Lunar New Year

All students at Eagle Point benefited from Lunar New Year activities - creating crafts from Chinese culture (lanterns and paper cuttings) and the Mandarin classes held a parade for the entire school.

Guitar upgrade

North purchased 10 new cases, picks, and kapos to improve their musical skills-- especially for those not in traditional music classes.

Team Games

Students at Weaver played cooperative team games for track and field day, learning the value of teamwork while having fun.

Next Step

GrantEd Funds were used to purchase a wardrobe of work clothes for students in community work experiences to prepare them for success.

Poetry Books

Students at Justice Alan Page Elementary published their own books of poems and illustrations, and bring them home to share with families.

Polar Studio

Inside Polar Studio Sessions connected students, educators, and the City of North Saint Paul in engaging conversations and media production.

Math Matters

Anne Sauvageau used GrantEd to support Math Masters district-wide. "I was able to secure donations to fund 13 math master teams across elementary schools."

STEM Night

Weaver students enjoyed Snake Discovery Center thanks to friends at Maplewood Nature Center.

Card making

Tartan students made heartfelt cards to express their creativity and appreciation.
